PARAPPIN FOR A COLD.

A printer named Phillips, of Birmingham, drank a pint of parafin, and he was eshequently charge with the printer to the printer of the and he was subsequently charged with attempting to commit suicide. He said it was all as accident.—The police observed that Phillips cut his threat last July.—"Wouldn't a plat of parallia kill a man" saked the magistrate's clerk.—"There would not be quite a pint," replied Phillips, seriously. Since the Colonial Secretary delivered his recent speech at the Colonial Institute in support of the United British Women's Emigration Association we have received letters from numerous correspondents asking for imformation about emigration to South Africa.
